

## are you ready for a **revolution?**

### CENTRALIZED SECURE NETWORK STORAGE

**TS4T SERIES**

**TS4R SERIES**

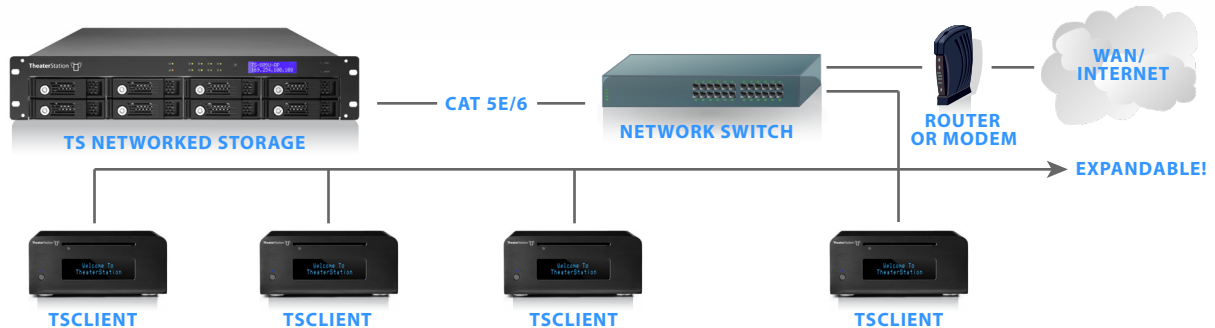

**TS8R SERIES**

and configurations ensure that Envive can meet your price, storage, installation, and usage requirements. Combine any model with the TheaterStation Digital Media Management Client and you can offer your customers revolutionary new ways to access, sort, store, and enjoy their entire non-copyright and non-access controlled digital library. Your customers will sleep soundly knowing that their media is safe and secure with the RAID architecture used in all of our models. Customers can easily transfer digital content to the storage device using a browser or by mapping it as a network drive.

## FEATURES

- Storage capacities from 4TB to 14TB
- No need for a TheaterStation server
- Supports 20 zones of independent Audio and Video
- Easy installation
- Available in Rack Mount and Tower configurations
- Pre-configured to enable automatic Client detection and connection
- Redundant power supplies on TS8R series for more stable performance

# TheaterStation Digital Media Management System with Networked RAID Storage
