

Introducing Envive's TheaterStation® Rack Mount Client.  
Stream your content with ease anywhere inside your home.

Add a TheaterStation Rack Mount Client to your centralized Audio/Video distribution system to extend the TheaterStation experience to any room in your home. The Rack Mount Client enables you to enjoy all the content stored on either a Networked Storage unit or a TheaterStation server. The rack mount design enables compact multi-zone installations.

## FEATURES

- Store & Manage non-copy or access-protected Films, Music CDs, and Home Movies
- Easy-to-Use with the industry's lowest Per/Terabyte cost!
- Store and sort metadata alphabetically by genre, year and more
- Unique Spin™ user interface provides an intuitive user experience with One-Click play
- Quick and simple installation while providing users a premium media experience
- Get new features and updates online via the TheaterStation Online Service
- Play and archive non-copy or access-protected DVD & CD based content simultaneously from anywhere in the home, up to 20 rooms
- Full featured Parental Controls with PassKey Access, with independent controls in each zone
- With the 2U form factor TheaterStation Rack Mount Clients are easy to install in your A/V rack
- Discrete codes are supported for RS-232, IP, and IR control
- Optional component video card for switched component video installers
- Optional slide rail kit

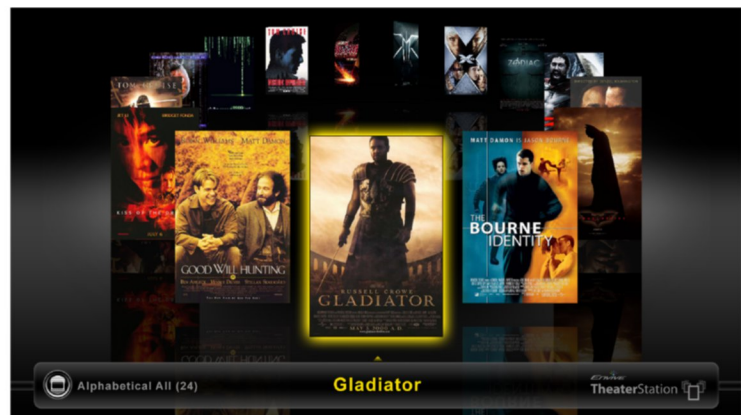

Now extend your TheaterStation experience to multiple zones from your central equipment closet.

One TheaterStation NAS can provide content to up to twenty clients at once.

Experience the same great TheaterStation Spin™ user interface from anywhere in your home.

By connecting up to 20 clients to a single server, users can enjoy 20 unique zones of content streaming from the same server all over an existing wired home network.
